

BAND A: Drones – an eye in the sky

Based on LA Times/newsela article from July 07, 2014 4:00 AM

Hey Frank!

Tell your drone to get out of my space!

YOSEMITE NATIONAL PARK BANS DRONES!

1. Do drones fly or drive?
2. Look at both pictures. What feelings do you see?
3. Based on the pictures, how do people feel about drones?
4. What's another word for "ban"?

DRONES: THE EYE IN THE SKY

What is a drone?

A drone is a very, very small plane. Drones usually have cameras. They also have tiny computers. The computer controls the drone. A person on the ground controls the computer.

What do they do?

Drones are an eye in the sky. They take pictures or video of sports events. Drones take pictures of nature, too. They can also take pictures and videos of people.

How do some people feel about them?

Drones make some people angry. They don't want to be in the drone photos or videos. Sometimes drones crash. The National Park Service banned drones. Some people want to ban drones everywhere.

1. How does the article describe a drone?
2. Why are drones an "eye in the sky"?
3. Is ban the same as stop?
4. What is this article about?
