Florida Education and Training Placement Information Program (FETPIP)

What is FETPIP?

Florida Education & Training Placement Information Program

- The Florida Education and Training Placement Information Program (FETPIP) is a data collection and consumer reporting system established by Florida Statutes Section 1008.39 to provide follow-up data on former students and program participants who have graduated, exited or completed a public education or training program within the State of Florida. The statute requires all elements of Florida's workforce development system to use information provided through FETPIP, for any project they may conduct requiring automated matching of administrative records for follow-up purposes.
- A major goal of Florida's K-20 Education system is to improve employment and earnings outcomes for all students. This information is part of the performance accountability processes for all parts of the K-20 system and serves as an indicator of student achievement and program needs. It helps educators and parents better prepare and counsel students for success in their future education or career choices.
