

# FLIPGRID.

## Use video the way your students do.

Flipgrid empowers and amplifies student voice. You create the topics, students respond with video, and everyone engages 🚀

### Social learning

Each student has an equal voice, creating a richer learning environment for all. Bring the back row to the front.

### Reflection

Watch and give formative feedback to your students as they develop confidence, reasoning skills, and digital citizenship.

### Simplicity

It takes less than two minutes to create an account, post a topic, and invite students to share their voices.

“Student communication of thinking and reasoning involves ALL students, not just the ones who raise hands during class discussion. Flipgrid allows for students to hear multiple ways of problem solving. Flipgrid has changed my classroom.”

**Jennifer Saarinen**  
Middle school Math teacher

**\$400**

for 10 Classroom subscriptions

Ignite discussions throughout your school, district, department, or university. Contact us to build a Classroom 10-Pack today!

"I honestly think that Flipgrid is the biggest game-changer that I have had in my classroom since I started teaching nine years ago. We love Flipgrid."

**Nicole LaFave**

High school Language Arts teacher

"With Flipgrid students have the opportunity to re-examine the world and challenge what they believe to be their place in it."

**Dr. Sam Richards**

University Sociology professor

Flipgrid engages more than 50,000 classrooms across 137 countries on all 7 continents. Your classroom is next!
